ANETSODI CONSOLE TABLE

Stickball

The Anetsodi Console was inspired by utilizing the soft curves and simple shape of the stick used in the Native American sport of 'Stickball' - creating a rhythm of beautiful unison. Achieving a striking balance between solidity and lightness, the Anetsodi table is perfect as a Dining Table or as a console in an entryway. Each piece is by hand and is marked by unique characteristics with the bulbous stick structure be it in wood, resin glass or metal.
